## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The polypeptide of the Instant Application is a novel and nonobvious secreted protein synthesized from parathyroid hormone (PTH), that has been shown to have biological activity typical of this class of growth hormones. The claims of the instant application are directed to the full length protein as well as biologically active large fragments. The claims are free of the prior art as the polypeptide has not been disclosed or studied in the prior art. The specification provides experimental evidence of utility and enablement under 35 U.S.C. 112, first paragraph. The claims also meet 35 U.S.C. 112- second paragraph requirements because the claims point out and distinctly claim the invention.

### *Drawings*

Formal corrected drawings must be submitted. See MPEP § 608.02 and 37 CFR 1.84(u)(1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
